An export house connecting India's most fertile regions — Maharashtra, Gujarat, Northern Plains — to importers, food processors and distributors across six continents.

About Santu Overseas

A trade house rooted in India, built for the world.

Santu Overseas is an Indian agricultural export house that connects the country's most fertile regions to importers, food processors and distributors across six continents.

Our model is direct and accountable — we source from named regions India is famous for, work with certified processors and packers, and handle every consignment with export-grade documentation. From tomato derivatives and dairy to rice, millets, oilseeds, spices, and value-added powders, we operate as a single-window sourcing partner for the entire Indian agri-basket.

Why partners choose us

Six promises behind every shipment.

Each consignment leaving our facility carries the same six commitments — to origin, quality, packaging, paperwork, basket-breadth and on-time delivery.

Origin-Verified Sourcing

Honest grading. Transparent pricing. Documented quality. And the kind of communication that makes long-haul trade simple.

Quality You Can Audit

Every consignment is graded, moisture-checked and sampled before dispatch. Specifications are agreed in writing; third-party inspection is welcomed.

Packaging Built for Distance

5 kg retail to 50 kg jute sacks, vacuum packs, FCL containerized shipments — packaging matched to product, journey, and destination market.

Complete Export Documentation

FSSAI & APEDA compliance, phytosanitary certificates, COA, country-specific labels — every shipment is paperwork-ready before leaving port.

Single-Window Sourcing

One partner for tomato paste, rice, millets, spices & powders — fewer suppliers, simpler logistics, consistent quality across the basket.

On-Time, Every Time

Operating from Nhava Sheva (JNPT) and Mundra — booking, stuffing and dispatch coordinated to meet sailing schedules without surprise.

Our Basket

Seven categories, one trusted partner.

A complete index of Santu Overseas' export-graded agricultural produce. Each category is detailed on the following two pages.
